All three are written into your rental contract.

Rental agreement §9.4

On-Time Guarantee

If the screen isn't running at your start time because of the equipment or crew we provide, you aren't charged for the lost time.

Rental agreement §6

Weather Reschedule

If lightning or high wind cancels your event, move it to any open date within 12 months at no charge. If your date can't move, like Easter, and the call comes before the halfway point, you can take a refund of everything but the deposit instead.

Rental agreement §3

Posted Pricing

You pay our posted prices, and your written quote lists sales tax and any travel past 30 miles before you book.

2027 early-booking rate: 10% off any 2027 date booked by January 31, 2027, in exchange for permission to photograph and film the screen at your event for our marketing. We never publish close-ups of identifiable children without your written OK.

How Booking Works

1. **Request your date** — Scan the code or call. A request doesn't commit you to anything.
2. **Confirm the details** — We check availability and call you the same business day.
3. **Reserve your date** — E-sign the agreement and pay the 25% deposit. The balance is due 7 days before.
4. **Event day** — The crew arrives about 90 minutes early, sets up and runs the screen, and handles teardown.
